

Dear Life For Uganda (LFU) Friends,

LFU apologizes for not being in regular contact with our LFU Friends in 2024.

Pictorial Layout of future Amudat School

However, in the last year there has been a lot of interaction with our Friends in Uganda. They have prepared a school layout along with cost estimates. Plans are now in place to build a school in the remote eastern part of Uganda called Amudat. In December ground was broken for the initial phase of the primary school.

Groundbreaking Event

The initial phase of 2 to 3 basic classrooms (four walls and a roof) will allow the younger children to start attending school in March 2025 when the Uganda school year begins. Local teachers have been identified to begin the school year. Because of your donations (**THANK YOU**) LFU has been able to send \$25,000 to our Uganda Friends to help with the initial building phase. Local families have also agreed to house and feed the construction crew which must be imported into the community. More donations are needed to complete the school (preschool thru grade 8). The

remaining cost is estimated at \$55,000.

If you are able to help LFU bring education into this remote part of Uganda, please consider a 2025 donation to Life For Uganda. On the LFU Home page (www.lifeforuganda.org) click on the bottom **GREEN DONATE BUTTON** where you can donate with a credit card. Otherwise, checks can be sent to:

Life For Uganda
