9:15 am	Planning a Year of Continuing Education <ul style="list-style-type: none">• The purpose of this session is to first look at the repeatable process used by Stephen Ministry at Good Shepherd for the creation of a year-long Continuing Education Plan.• Then we will have open sharing of questions, ideas, and resources between TASMN participants. The hope is that session participants will be empowered to plan their own Continuing Education more easily. For those with more experience and resources, this will be an opportunity to share.
